

WHITE LITHIUM GREASE

It is a multipurpose lubricating grease based on high penetration Lithium soap that easily enters hard-to-reach areas unlike conventional greases, reducing friction, preventing wear and avoiding corrosion of metal parts. It is a multipurpose lubricating grease based on high penetration Lithium soap that easily enters hard-to-reach areas unlike conventional greases, reducing friction, preventing wear and avoiding corrosion of metal parts.

USES

Applicable in the lubrication of battery terminals, brake cables, rollers, chains, lathes, gears, bearings, constant velocity joints, door guides, fans, windows, hinges, machines and tools in general.

PROPERTIES

- Reduces friction and wear in metal-metal and metal-plastic applications, providing strong and durable lubrication.
- Effective in extreme environmental conditions, water and heat resistant.
- It displaces the humidity during its application.
- Its color facilitates the visual inspection of the lubricant on the object used.
- Does not drip, does not melt or freeze.
- In the aerosol, hydrocarbons are used as a propellant to control the application and the thickness of the film.

HOW TO USE

- Shake the aerosol before use.
- Properly spray the surface to be protected and lubricated.
- Use the extension tube for precise applications or to reach difficult areas.

HEALTH AND SAFETY

This product is highly flammable and can explode if punctured, incinerated or overheated (above 50 ° C).

Do not apply on energized elements, or near sparks or fire.

In case of ingestion, do not induce vomiting and seek medical help, if contact with the skin or eyes occurs, wash with plenty of soap and water.

Keep this product out the reach of children.

TYPICAL PROPERTIES

PHYSICOCHEMICAL TESTS	UNIT	METHOD	AVERAGE VALUES
Color	-	VISUAL	White
Density (15.6 °C)V	Kg/L	ASTM D-4052	>0.74
Four Ball War	Mm	ASTM D-2266	0.52
Vapor pressure	-	-	35-60 psi a 70°F
Water solubility	-	-	Insoluble
Minimum temperature	°C	-	-18
Volatile percentage	%	-	76

The specifications are average values. In the manufactured batches there may be slight variations that do not affect the quality of the product or the performance.

AVAILABLE SIZES

WHITE LITHIUM GREASE

- 10 Oz Spray bottle
